

Bagno di Colore. In Showroom

The Bagno di Colore colour palette, created in collaboration with CreativeLab+, consists of 14 ceramic colours that multiply collections such as Bowl+ and Stockholm, designed by the trio Claesson Koivisto Rune. Products with the new nuances were featured at the latest Salone del Mobile in a setting with unexpected colours in Corso Monforte 15. Bagno di Colore is still on display in the Globo showroom of Milan, come and visit us!

Ceraslide. New ceramic enamel

Ceramic Globo research has led to the birth of the CERASLIDE® enamel, a new formulation highly tested to obtain an efficiency that does not alter over time, using raw materials of the highest quality, harmless to health and the environment. CERASLIDE® is applied to the ceramic product ensuring uniform protection: available on the Stockholm collection and soon on all other Globo products.

All the Globo catalogues in a single App

The Ceramica Globo App allows you to find all the latest collections quickly and easily, and is now also available on iPhone, iPad and Android devices. A simple and intuitive interface, combined with the ability to customise the use with filters and bookmarks makes this App a useful and easy to navigate tool. Go to iTunes or click here to download.
