We love colours! Cersaie 2015

The Ceramica Globo's presence at this year's Cersaie is confirmed with a stand of 400 sqm inside Hall 21, from September 28th to October 2nd. The new products, together with the classic collections and the innovations that update some of the existing collections will communicate once again the brand's depth and dynamism. The company still manages to amaze and innovate without ever losing sight of the needs of everyday life.

TownHouse: bathroom with view of the Duomo

The TownHouse Duomo is the only luxury hotel with a view of Piazza Duomo and the Cathedral in all its magnificence. Some Ceramica Globo products were used to furnish the suites: the elegant bath-wellbeing area is furnished with our freestanding Bowl+ tub and Genesis countertop washbasins. The clean lines of these two collections give the areas a feeling of elegance, warmth and familiarity.

Ceraslide. On Stockholm

Ceramica Globo research has led to the birth of the CERASLIDE® enamel, now available on the Stockholm collection and soon on all other Globo products. CERASLIDE® is applied to the ceramic product ensuring uniform protection: thank to the enamel, the residues do not adhere to the walls and slide off with water to provide deeper and long-lasting hygiene.

Easy detach. On Stockholm

The new quick release hinges, available on Stockholm sanitary fixtures, have a special mechanism that allows removing the toilet seat with one simple gesture. This system enables quick assembly and disassembly of the toilet seat for easy cleaning of the seat itself and the surrounding area, which is often difficult to reach. This hinge is available in both the traditional and soft-close versions.

Summer closure of the Company

The Ceramica Globo offices will be closed for summer holidays from 6 to 23 August inclusive. We will reopen for business as usual on 24 August.
Wishing you a safe and happy summer holiday!

Summer Closure Showroom Monforte15
