

It's time for Cersaie, again!

Ceramica Globo confirms its presence at Cersaie (Bologna, 25th-29th September) after the good results of the last edition of the fair. Between the novelties that are going to be presented, the new models of the most famous collection as T-Edge, Display, Stockholm and Incanto, the new shower tray Docciapietra and many other solutions that mix technology and special features.

Restyling Company headquarters

After a year of restructuring work which has involved the interior spaces and the façade, the Castel Sant'Elia company has introduced its refurbished headquarter. The project, by architect Romano Adolini, is inspired at the company's commitment to quality in everything. "Quality" according to Andrea Gulinucci, Ceramica Globo CEO, "needs to be considered everywhere, even in the place of work, in both the offices and the production areas. We hope that this new image reflects our philosophy and our values".

New T-Edge: Cersaie preview

Following the excellent market acceptance, Globo has added more combinations and models to its T-Edge Collection, designed by CreativeLab+ for Globo and previewed at the last edition of Cersaie. The real highlight of the T-Edge collection, available in the 14 Bagno di Colore ceramic shades, are the super slim edges – 6 mm thick – made possible by the new patented GLOBOTHIN® ceramic mixture, which guarantees reduced thickness along with greater strength and shine.

Summer, time for holidays

Ceramica Globo offices in Sant'Elia Headquarters will be closed from Saturday 5th August to Sunday 27th August included. Ceramica Globo showroom in Corso Monforte 15 in Milan will be closed from Wednesday 9th August to 27th August included and will open again on Monday 28th August (for more information: monforte15@ceramicaglobo.com)

Have a nice summer!
