

New Globo General Catalogue

The new Globo general catalogue is now available. It contains the entire range of products with lots of images and technical specs. It is a complete and detailed tool for showing end customers the entire range of products in all its possible formats.

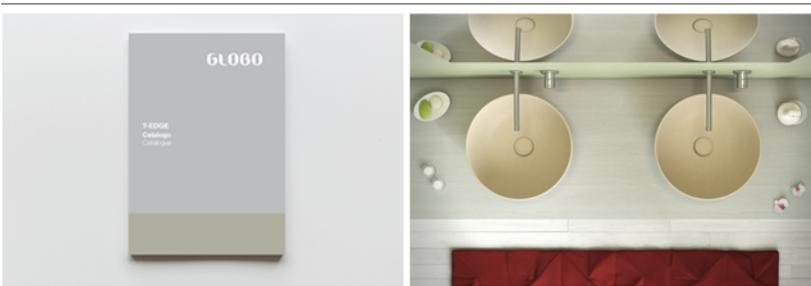

Thank you! Cersaie 2016

Cersaie 2016, the leading trade show and important appointment for Ceramica Globo, ended on a positive note. Excellent turnout of customers, architects, interior designers and journalists, with a significant increase in professionals from abroad. The Globo stand was designed by Domenico Orefoce Design Studio. Divided into various environments with different colours and styles, it allowed beautifully showcasing the new products, such as the T-Edge collection, Incantho collection, the renewed Stone collection, new versions of Stockholm and Senzabrida, the Display collection.

Incantho Collection: the new catalogue

The brochure dedicated to the wide Incantho collection by CreativeLab+ is now available. Filled with technical specs and images, it presents the countless possibilities of composition offered by the washbasins and integrated furnishings, playing with the shapes and colours. A complete and transversal collection of bathroom furnishings with a ceramic heart.

T-Edge: the new catalogue

The new brochure dedicated specifically to the T-Edge collection is also available. It shows the furnishings in the "Bagno di Colore" versions photographed in beautiful settings.
