

Docciadesia, Docciaviva and Docciabella: to suit every taste!

Ceramica Globo offers a wide range of shower trays suitable for all needs: Docciadesia, with its shallow shower trays in Mineralmarble® and slate finish, Docciaviva, a family of shower trays in ceramic characterised by a special design with an anti-slip and foot massaging function, and Docciabella, characterised by a minimal texture. All three collections can be installed either flush with the floor or on top of it.

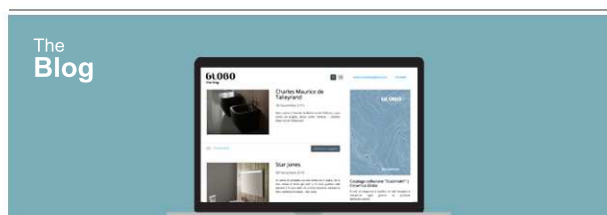

Expansion of the Senzabrida® range

SENZABRIDA® was launched on the 4ALL collection. It has been updated and improved and is now found on a wide range of sanitary fixtures (4ALL available from November, Bowl+ and Forty3 from January) for a more elegant look and, above all, greater hygiene. The SENZABRIDA® technology will also feature in a dedicated brochure to be issued at the end of the year. Here is a preview of some pictures.

Ceramica Globo wishes you all happy holidays!

The Ceramica Globo offices will be closed from 23 December to 6 January, inclusive. For information: info@ceramicaglobo.com
The Ceramica Globo showroom in Corso Monforte 15, Milan will be closed from 24 December to 6 January inclusive. For information: monforte15@ceramicaglobo.com
Happy holidays!

A video section and blog are added to the Globo website

New contents are tools are added to the Ceramica Globo website. From December, the company will launch a blog filled with news, curiosities and insights on the Globo world and style. You can also download all the videos of the company in the Download section: from helpful tutorials on how to install the products to presentations of the latest collections.
